

# Aurora Mobile's GPTBots.ai Integrates Grok 4 to Expand its Enterprise-Grade AI Agents Ecosystem

July 28, 2025 at 5:00 AM EDT

SHENZHEN, China, July 28, 2025 (GLOBE NEWSWIRE) -- Aurora Mobile Limited (NASDAQ: JG) ("Aurora Mobile" or the "Company"), a leading provider of customer engagement and marketing technology services in China, today announced that its AI agent platform GPTBots.ai will integrate Grok 4, an advanced large language model (LLM). By leveraging the respective strengths of both platforms, the collaboration aims to deliver more efficient and intelligent AI solutions for enterprises worldwide.

## Grok 4: High-Performance LLM

Equipped with cutting-edge LLM technology, Grok 4 can handle complex semantics, cross-domain knowledge transfer, and real-time data processing. It enables AI agents to perform logical reasoning and generate content across high-complexity scenarios, significantly enhancing both the quality of their responses and their processing efficiency.

## GPTBots.ai: A Robust and Diverse LLM Ecosystem

GPTBots.ai has built a powerful LLM ecosystem that integrates a wide range of industry-leading models, such as OpenAI's GPT series, Anthropic's Claude, Meta Llama, and DeepSeek, spanning both general-purpose and vertical domains. Enterprises can select or orchestrate multiple models on demand or integrate proprietary models to create "general intelligence + exclusive data" solutions tailored to their needs. This approach lowers technical barriers and significantly enhances AI agent performance.

Mr. Weidong Luo, Chairman and Chief Executive Officer of Aurora Mobile, commented, "The integration of Grok 4 marks the fusion of cutting-edge technology and real-world application capabilities. This collaboration will help us deliver even more advanced and impactful AI solutions to enterprises worldwide."

## About Aurora Mobile Limited

Founded in 2011, Aurora Mobile (NASDAQ: JG) is a leading provider of customer engagement and marketing technology services in China. Since its inception, Aurora Mobile has focused on providing stable and efficient messaging services to enterprises and has grown to be a leading mobile messaging service provider with its first-mover advantage. With the increasing demand for customer reach and marketing growth, Aurora Mobile has developed forward-looking solutions such as Cloud Messaging and Cloud Marketing to help enterprises achieve omnichannel customer reach and interaction, as well as artificial intelligence and big data-driven marketing technology solutions to help enterprises' digital transformation.

## Safe Harbor Statement

This announcement contains forward-looking statements. These statements are made under the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as "will," "expects," "anticipates," "future," "intends," "plans," "believes," "estimates," "confident" and similar statements. Among other things, the Business Outlook and quotations from management in this announcement, as well as Aurora Mobile's strategic and operational plans, contain forward-looking statements. Aurora Mobile may also make written or oral forward-looking statements in its reports to the U.S. Securities and Exchange Commission, in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including but not limited to statements about Aurora Mobile's beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties. A number of factors could cause actual results to differ materially from those contained in any forward-looking statement, including but not limited to the following: Aurora Mobile's strategies; Aurora Mobile's future business development, financial condition and results of operations; Aurora Mobile's ability to attract and retain customers; its ability to develop and effectively market data solutions, and penetrate the existing market for developer services; its ability to transition to the new advertising-driven SAAS business model; its ability to maintain or enhance its brand; the competition with current or future competitors; its ability to continue to gain access to mobile data in the future; the laws and regulations relating to data privacy and protection; general economic and business conditions globally and in China and assumptions underlying or related to any of the foregoing. Further information regarding these and other risks is included in the Company's filings with the Securities and Exchange Commission. All information provided in this press release and in the attachments is as of the date of the press release, and Aurora Mobile undertakes no duty to update such information, except as required under applicable law.
