

Aurora to Report Third Quarter 2019 Financial Results on November 21, 2019

October 10, 2019

SHENZHEN, China, Oct. 10, 2019 (GLOBE NEWSWIRE) -- Aurora Mobile Limited (NASDAQ: JG) ("Aurora" or the "Company"), a leading mobile developer service provider in China, today announced that it will release its unaudited financial results for the third quarter ended September 30, 2019 before the open of U.S. markets on Thursday, November 21, 2019.

Aurora's management will host an earnings conference call on Thursday, November 21, 2019 at 7:00 a.m. U.S. Eastern Time (8:00 p.m. Hong Kong time on the same day).

Dial-in details for the earnings conference call are as follows:

International:	+65 6713-5090
U.S.:	+1 845-675-0437
Hong Kong:	+852 3018-6771
China:	400-620-8038
Passcode:	3993899

Please dial in 15 minutes before the call is scheduled to begin and provide the passcode to join the call.

A telephone replay of the call will be available after the conclusion of the conference call through 9:00 p.m. U.S. Eastern Time, November 28, 2019. The dial-in details for the replay are as follows:

International:	+61 2 8199 0299
U.S. Toll Free:	1-855-452-5696
Passcode:	3993899

A live and archived webcast of the conference call will be available on the Investor Relations section of Aurora's website at <http://ir.iiguang.cn/>.

About Aurora Mobile Limited

Founded in 2011, Aurora is a leading mobile big data solutions platform in China, pioneered in providing mobile developer services such as push notification, instant messaging, analytics, sharing and short message service (SMS). Aurora has served approximately 451 thousand mobile app developers and approximately 1,289 thousand mobile applications, accumulated data from nearly 26.6 billion installations of the Company's software development kits (SDKs), with monthly unique active device base of nearly 1.13 billion, as of June 2019. Based on Aurora's vast data coverage and insights garnered, the Company has expanded its offerings into big data solutions, including targeted marketing, financial risk management, market intelligence and location-based intelligence. By utilizing artificial intelligence and machine learning, Aurora strives to help improve productivity for businesses and society through harnessing the power of mobile big data to derive actionable insights and knowledge.
