

Aurora Mobile's AI Bots Platform, GPTBots, Achieves Global Reach

February 22, 2024 at 4:00 AM EST

SHENZHEN, China, Feb. 22, 2024 (GLOBE NEWSWIRE) -- Aurora Mobile Limited (NASDAQ: JG) ("Aurora Mobile" or the "Company"), a leading provider of customer engagement and marketing technology services in China, today provides business update on its AI Bots platform, GPTBots.

With GPTBots, users can build, train, and deploy AI bots to handle specific tasks within their business environment in about an hour without any programming experience. GPTBots is a complementary general-purpose LLM AI bot featuring private data input and continuous fine-tuning, which can replace 'rule-based' chatbots, improve user experience, and reduce costs. GPTBots aims to provide users with an end-to-end business platform that can seamlessly integrate robots into existing applications and workflows via plug-ins. GPTBots also allow users to have great access to and more efficient and effective use of AIGC to improve overall corporate productivity and quality of output.

Since its launch in September 2023, the GPTBots registered users (both corporates and developers) number has exceeded 10,000 as of December 31, 2023 with more than 60% originated internationally. These registered users are from more than 30 countries worldwide ranging from China, USA, India, Japan, Australia, Germany, Switzerland just to name a few. These registered users are from different industry verticals covering different spectrums of the market. However, as this business is at an early stage, the revenue contribution to the Company for the quarter ended December 31, 2023 is very insignificant.

Mr. Weidong Luo, Chairman and Chief Executive Officer of Aurora Mobile, commented, "We are very pleased with the progress made by GPTBots in Q4 of 2023. It proved that our AI Bots platform, GPTBots, is truly a global product well accepted by users from different continents around the world and serving different businesses."

About Aurora Mobile Limited

Founded in 2011, Aurora Mobile (NASDAQ: JG) is a leading provider of customer engagement and marketing technology services in China. Since its inception, Aurora Mobile has focused on providing stable and efficient messaging services to enterprises and has grown to be a leading mobile messaging service provider with its first-mover advantage. With the increasing demand for customer reach and marketing growth, Aurora Mobile has developed forward-looking solutions such as Cloud Messaging and Cloud Marketing to help enterprises achieve omnichannel customer reach and interaction, as well as artificial intelligence and big data-driven marketing technology solutions to help enterprises' digital transformation.

Safe Harbor Statement

This announcement contains forward-looking statements. These statements are made under the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as "will," "expects," "anticipates," "future," "intends," "plans," "believes," "estimates," "confident" and similar statements. Among other things, the Business Outlook and quotations from management in this announcement, as well as Aurora Mobile's strategic and operational plans, contain forward-looking statements. Aurora Mobile may also make written or oral forward-looking statements in its reports to the U.S. Securities and Exchange Commission, in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including but not limited to statements about Aurora Mobile's beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties. A number of factors could cause actual results to differ materially from those contained in any forward-looking statement, including but not limited to the following: Aurora Mobile's strategies; Aurora Mobile's future business development, financial condition and results of operations; Aurora Mobile's ability to attract and retain customers; its ability to develop and effectively market data solutions, and penetrate the existing market for developer services; its ability to transition to the new advertising-driven SAAS business model; its ability to maintain or enhance its brand; the competition with current or future competitors; its ability to continue to gain access to mobile data in the future; the laws and regulations relating to data privacy and protection; general economic and business conditions globally and in China and assumptions underlying or related to any of the foregoing. Further information regarding these and other risks is included in the Company's filings with the Securities and Exchange Commission. All information provided in this press release and in the attachments is as of the date of the press release, and Aurora Mobile undertakes no duty to update such information, except as required under applicable law.
