Mr. Weidong Luo, Chairman and Chief Executive Officer of Aurora Mobile, commented, "This quarter has been remarkable from financial results perspective. There were a few record-breaking events that we have achieved. The snapshots for this quarter are as follows:

- Firstly, we are writing our own history! In this quarter, we recorded the 5th consecutive quarterly positive Adjusted EBITDA.
- Secondly, Developer Subscription revenue recorded both 7% growth quarter-over-quarter and 11% growth year-over-year. More importantly, the quarterly revenue has exceeded RMB50 million for the first time in history. Yet another recordbreaking event in this quarter!
- Thirdly, we recorded net operating cash inflow of RMB12.3 million. This is the highest level for the past 16 quarters.
- Fourthly, our EngageLab business continues to grow significantly in terms of both customer numbers (grew 32% quarterover-quarter) and cumulative signed contract value (grew 23% quarter-over-quarter).

Our Subscription Services revenues of RMB51.7 million grew strongly by 11% year-over-year and by 7% quarter-over-quarter. The year-over-year and quarter-over-quarter revenue growth was mainly driven by increase in ARPU. Another major contributor of this impressive revenue growth was the solid performance of our EngageLab business. The EngageLab business has contributed strong revenue growth in this quarter. On year-over-year basis, the recognized revenue for EngageLab has grown close to 100%."

Mr. Shan-Nen Bong, Chief Financial Officer of Aurora Mobile, added, "We have been diligent in growing and managing our business. We keep our operating expenses to an optimal level to support business growth and expansion. Our gross profit in this quarter recorded good growth, both year-over-year and quarter-over-quarter, where gross profit grew every quarter to new heights from Q1 to Q3 in 2024. Last, but not least, our net loss narrowed by 69% on a year-over-year basis."

Third Quarter 2024 Financial Results

Revenues were RMB79.1 million (US\$11.3 million), an increase of 7% from RMB74.1 million in the same quarter of last year, mainly due to a 12% increase in revenue from Developer Services and partially offset by a 4% decrease in revenue from Vertical Applications.

Cost of revenues was RMB25.8 million (US\$3.7 million), an increase of 19% from RMB21.8 million in the same quarter of last year. The increase was mainly due to a RMB1.8 million increase in technical service cost, a RMB0.3 million increase in cloud costs and a RMB0.8 million increase in short messaging cost.

Gross profit was RMB53.2 million (US\$7.6 million), an increase of 2% from RMB52.3 million in the same quarter of last year.

Total operating expenses were RMB57.1 million (US\$8.1 million), a decrease of 5% from RMB60.0 million in the same quarter of last year.

- Research and development expenses were RMB24.2 million (US\$3.4 million), a decrease of 26% from RMB32.8 million in the same quarter of last year, mainly due to a RMB3.1 million decrease in personnel costs, a RMB3.0 million decrease in technical service fee, a RMB1.9 million decrease in cloud cost and a RMB0.8 million decrease in depreciation expense.
- Sales and marketing expenses were RMB22.4 million (US\$3.2 million), an increase of 3% from RMB21.8 million in the same quarter of last year, mainly due to a RMB1.1 million increase in travel expense.

• General and administrative expenses were RMB10.4 million (US\$1.5 million), an increase of 92% from RMB5.4 million in the same quarter of last year, mainly due to there was a one-time gain on disposal of property and equipment of RMB7.6 million in Q3'2023 which was non-existence in Q3'2024. The impact was partially offset by a RMB1.5 million decrease in personnel costs.

Loss from operations was RMB3.6 million (US\$0.5 million), compared with RMB1.8 million in the same quarter of last year.

Net Loss was RMB2.2 million (US\$0.3 million), compared with RMB7.0 million in the same quarter of last year.

Use of Non-GAAP Financial Measures

In evaluating the business, the Company considers and uses two non-GAAP measures, adjusted net income/(loss) and adjusted EBITDA, as a supplemental measure to review and assess its operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. The Company defines adjusted net income/(loss) as net loss excluding share-based compensation, reduction in force charges and impairment of long-term investments. The Company defines adjusted EBITDA as net loss excluding interest expense, depreciation of property and equipment, amortization of intangible assets, amortization of land use right, income tax expenses/(benefits), share-based compensation, reduction in force charges and impairment of long-term investments.

The Company believes that adjusted net income/(loss) and adjusted EBITDA help identify underlying trends in its business that could otherwise be distorted by the effect of certain expenses that it includes in loss from operations and net loss.

The Company believes that adjusted net income/(loss) and adjusted EBITDA provide useful information about its operating results, enhance the overall understanding of its past performance and future prospects and allow for greater visibility with respect to key metrics used by the management in their financial and operational decision-making.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using adjusted net income/(loss) and adjusted EBITDA is that they do not reflect all items of income and expense that affect the Company's operations. Further, the non-GAAP financial measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.

The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating the Company's performance. The Company encourages you to review its financial information in its entirety and not rely on a single financial measure.

Reconciliations of the non-GAAP financial measures to the most comparable U.S. GAAP measure are included at the end of this press release.
